

DEPARTMENT OF HOMELAND SECURITY

Federal Emergency Management Agency

[Docket ID: FEMA-2022-0007]

Assistance to Firefighters Grant Program

AGENCY: Federal Emergency Management Agency (FEMA), Department of Homeland Security (DHS).

ACTION: Notice of availability.

SUMMARY: Pursuant to the Federal Fire Prevention and Control Act of 1974, as amended, the Administrator of FEMA is publishing this notice describing the fiscal year (FY) 2021 Assistance to Firefighters Grant (AFG) Program application process, deadlines, and award selection criteria. This notice explains the differences, if any, between these guidelines and those recommended by representatives of the national fire service leadership during the annual meeting of the Criteria Development Panel, which was held June 25, 2021. The application period for the FY 2021 AFG Program is November 8, 2021 through January 21, 2022, and was announced on the AFG website at <https://www.fema.gov/grants/preparedness/firefighters>, as well as at www.grants.gov.

DATES: Grant applications for the FY 2021 AFG Program are being accepted electronically at <https://go.fema.gov>, from November 8, 2021 through January 21, 2022, at 5 p.m. ET.

ADDRESSES: Assistance to Firefighters Grant Branch, DHS/FEMA, 400 C Street SW, 3N, Washington, DC 20472-3635.

FOR FURTHER INFORMATION CONTACT: Catherine Patterson, Branch Chief, Assistance to Firefighters Grant Branch, 1-866-274-0960.

SUPPLEMENTARY INFORMATION: The AFG Program awards grants directly to fire departments, nonaffiliated emergency medical services (EMS) organizations, and

State Fire Training Academies (SFTAs) for the purpose of enhancing the health and safety of first responders and improving their abilities to protect the public from fire and fire-related hazards.

Applications for the FY 2021 AFG Program are submitted and processed online at <https://go.fema.gov>. Before the application period started, the FY 2021 AFG Program Notice of Funding Opportunity (NOFO) was published on FEMA's AFG Program website at *Assistance to Firefighters Grants Program | FEMA.gov*. The AFG Program website provides additional information and materials useful for FY 2021 AFG Program applicants including Frequently Asked Questions, Application Checklist, Get Ready Guide Narrative, Self-Evaluation Sheets for Vehicle Acquisition and Operations Safety, and a Cost Share Calculator. Based on past AFG Program application periods, FEMA anticipates receiving 8,000 to 10,000 applications for the FY 2021 AFG Program, and the ability to award approximately 2,000 grants.

Congressional Appropriations:

For the FY 2021 AFG Program, Congress appropriated a total of \$460 million through the *DHS Appropriations Act, 2021* (Pub. L. 116-260) (\$360 million) and the *American Rescue Plan Act of 2021* (Pub. L. 117-2) (\$100 million). From this amount, \$414 million will be made available for FY 2021 AFG Program awards. In addition, section 33 of the Federal Fire Prevention and Control Act of 1974, as amended (15 U.S.C. 2229), requires that a minimum of 10 percent of available funds be expended for Fire Prevention and Safety (FP&S) Program grants. FP&S Program awards will be made directly to local fire departments and to local, regional, state, or national entities recognized for their expertise in the fields of fire prevention and firefighter safety research and development. The majority of the funds appropriated for FY 2021 are available for obligation and award until September 30, 2022. The \$100 million from the *American Rescue Plan Act of 2021* is available for obligation and award until September

30, 2025, but FEMA anticipates obligating and awarding all of this funding with the rest of the FY 2021 funding by September 30, 2022.

The Federal Fire Prevention and Control Act of 1974 further directs FEMA to administer these appropriations according to the following requirements:

- Career fire departments: Not less than 25% of available grant funds.
- Volunteer fire departments: Not less than 25% of available grant funds.
- Combination fire departments and departments using paid-on-call firefighting personnel: Not less than 25% of available grant funds.
- Open competition (career, volunteer, and/or combination fire departments and departments using paid-on-call firefighting personnel): Not less than 10% of available grant funds awarded.
- EMS providers including fire departments and nonaffiliated EMS organizations: Not less than 3.5% of available grant funds awarded, with nonaffiliated EMS providers receiving no more than 2 percent of the total available grant funds.
- SFTAs: Not more than 3% of available grant funds shall be collectively awarded to SFTA applicants, with a maximum of \$1 million per applicant.
- Vehicles: Not more than 25% of available grant funds may be used for the purchase of vehicles; by policy and based on recommendations, FEMA intends to dedicate 10% of those vehicle funds for ambulances.
- Micro grants: This is a voluntary funding limitation choice made by the applicant for requests submitted within the operations and safety activity; it is not an additional funding opportunity. Micro grants are awards that have a Federal participation (share) that does not exceed \$50,000. Only fire departments and nonaffiliated EMS organizations are eligible to choose micro grants, and the only eligible micro grants requests are for training, equipment,

personal protective equipment (PPE), and wellness and fitness activities.

Applicants that select micro grants may receive additional consideration for award. If an applicant selects micro grants in their application, they will be limited in the total amount of funding their organization can be awarded. If they are requesting funding in excess of \$50,000 Federal participation, they should not select micro grants.

Background of the AFG Program

Since 2001, the AFG Program has helped firefighters and other first responders obtain critically needed equipment, protective gear, emergency vehicles, training, and other resources needed to protect the public and emergency personnel from fire and related hazards. FEMA awards grants on a competitive basis to the applicants that best address the AFG Program's priorities and provide the most compelling justification. Applications that best address AFG Program priorities, as identified in the Application Evaluation Criteria, are reviewed by a panel composed of fire service personnel.

The AFG Program has three program activities:

- Operations and Safety
- Vehicle Acquisition
- Regional Projects

The priorities for each activity are fully outlined in the funding notice.

Application Evaluation Criteria

Before making a grant award, FEMA is required by 31 U.S.C. 3354, as amended by the Payment Integrity Information Act of 2019, Pub. L. 116-117 (2020), 41 U.S.C. 2313, and 2 CFR 200.206 to review information available through any Office of Management and Budget (OMB) designated repositories of government-wide eligibility qualification or financial integrity information. Therefore, application evaluation criteria may include the following risk-based considerations of the applicant: (1) financial

stability; (2) quality of management systems and ability to meet management standards; (3) history of performance in managing Federal awards; (4) reports and findings from audits; and (5) ability to effectively implement statutory, regulatory, or other requirements.

FEMA will rank all complete and submitted applications based on how well they align with program priorities for the type of jurisdiction(s) served. Answers to activity-specific questions provide information used to determine each application's ranking relative to the stated program priorities.

Funding priorities and criteria for evaluating AFG Program applications are established by FEMA based on the recommendations from the Criteria Development Panel (CDP). The CDP is composed of fire service professionals that make recommendations to FEMA regarding the creation of new, or the modification of previously established, funding priorities, as well as developing criteria for awarding grants. The content of the funding notice reflects implementation of the CDP's recommendations with respect to the priorities and evaluation criteria for awards.

The nine major fire service organizations represented on the CDP are:

- International Association of Fire Chiefs
- International Association of Fire Fighters
- National Volunteer Fire Council
- National Fire Protection Association
- National Association of State Fire Marshals
- International Association of Arson Investigators
- International Society of Fire Service Instructors
- North American Fire Training Directors
- Congressional Fire Service Institute

Review and Selection Process

AFG Program applications are reviewed through a multi-phase process. All applications are electronically pre-scored and ranked based on how well they align with the funding priorities outlined in the NOFO. Applications with the highest pre-score rankings are then scored competitively by no less than three members of a Peer Review Panel. Applications are also evaluated through a series of internal FEMA review processes for completeness, adherence to programmatic guidelines, technical feasibility, and anticipated effectiveness of the proposed project(s). Below is the process by which applications are reviewed:

i. Pre-Scoring Process

The application undergoes an electronic pre-scoring process based on established program priorities listed within the NOFO and answers to activity specific questions within the online application. Application narratives are not reviewed during pre-scoring. Request details and budget information should comply with program guidance and statutory funding limitations. The pre-score is 50% of the total application score.

ii. Peer Review Panel Process

Applications with the highest pre-score undergo peer review. The peer review is comprised of fire service representatives recommended by the organizations represented on the CDP. The panelists assess the merits of each application based on the narrative section of the application, including the evaluation elements listed in the Narrative Evaluation Criteria below. Panelists independently score each project within the application, discuss the merits and/or shortcomings of the application with their peers, and document the findings. A consensus is not required. The panel score is 50% of the total application score.

iii. Technical Evaluation Process

The highest ranked applications are considered within the fundable range. Applications that are in the fundable range undergo both a technical review by a subject-

matter expert, as well as a FEMA AFG Branch review before being recommended for an award. The FEMA AFG Branch assesses the request with respect to costs, quantities, feasibility, eligibility and recipient responsibility prior to recommending an application for award. Once the technical evaluation process is complete, the cumulative score for each application is determined and FEMA generates a final ranking of applications. FEMA awards grants based on this final ranking and the statutorily required funding limitations listed in this notice and the NOFO.

Narrative Evaluation Criteria

1. Financial Need (25%)

Applicants should describe their financial need and how consistent it is with the intent of the AFG Program. This statement should include details describing the applicant's financial distress, summarized budget constraints, unsuccessful attempts to secure other funding, and proof that their financial distress is out of their control.

2. Project Description and Budget (25%)

This statement should clearly explain the applicant's project objectives and the relationship between those objectives and the applicant's budget and risk analysis. The applicant should describe the activities, including program priorities or facility modifications, ensuring consistency with project objectives, the applicant's mission, and any national, state and/or local requirements. Applicants should link the proposed expenses to operations and safety, as well as the completion of the project goals.

3. Cost Benefit (25%)

Applicants should describe how they plan to address the operations and personal safety needs of their organization, including cost effectiveness and sharing assets. This statement should also include details about gaining the maximum benefits from grant funding by citing reasonable or required costs, such as specific overhead and

administrative costs. The applicant's request should also be consistent with their mission and identify how funding will benefit their organization and personnel.

4. Statement of Effect on Daily Operations (25%)

This statement should explain how these funds will enhance the applicant's overall effectiveness. It should address how an award will improve daily operations and reduce the applicant's risks. Applicants should include how frequently the requested items will be used, and in what capacity. Applicants should also indicate how the requested items will help the community and increase the organization's ability to save additional lives or property. Jurisdictions that demonstrate their commitment and proactive posture to reducing fire risk, by explaining their code enforcement (to include Wildland Urban Interface code enforcement) and mitigation strategies (including whether or not the jurisdiction has a FEMA-approved mitigation strategy) may receive stronger consideration under this criterion.

Eligible Applicants

Fire Departments: Fire departments operating in any of the 50 states, as well as fire departments in the District of Columbia, the Commonwealth of the Northern Mariana Islands, the U.S. Virgin Islands, Guam, American Samoa, the Commonwealth of Puerto Rico, or any federally recognized Indian Tribe or tribal organization.

A fire department is an agency or organization having a formally recognized arrangement with a state, territory, local (city, county, parish, fire district, township, town, or other governing body), or tribal authority to provide fire suppression to a population within a geographically fixed primary first due response area.

Nonaffiliated EMS organizations: Nonaffiliated EMS organizations operating in any of the 50 states, as well as the District of Columbia, the Commonwealth of the Northern Mariana Islands, the U.S. Virgin Islands, Guam, American Samoa, the

Commonwealth of Puerto Rico, or any federally recognized Indian Tribe or tribal organization.

A nonaffiliated EMS organization is an agency or organization that is a public or private nonprofit emergency medical services entity providing medical transport that is not affiliated with a hospital and does not serve a geographic area in which emergency medical services are adequately provided by a fire department.

FEMA considers the following as hospitals under the AFG Program:

- Clinics
- Medical centers
- Medical colleges or universities
- Infirmaries
- Surgery centers
- Any other institutions, associations, or foundations providing medical, surgical or psychiatric care and/or treatment for the sick or injured

State Fire Training Academies: SFTAs operating in any of the 50 states, as well as the District of Columbia, the Commonwealth of the Northern Mariana Islands, the U.S. Virgin Islands, Guam, American Samoa, or the Commonwealth of Puerto Rico. Applicants must be designated either by legislation or by a Governor's declaration as the sole fire service training agency within a state, territory, or the District of Columbia. The designated SFTA shall be the only agency/bureau/division, or entity within that state, territory or the District of Columbia.

Ineligibility

- To avoid a duplication of benefits, FEMA reserves the right to review all program activities or grant applications where two or more organizations share a single facility. To be eligible as a separate organization, two or more fire departments or nonaffiliated EMS organizations will have different funding streams, personnel

rosters, Employer Identification Numbers (EINs), or Data Universal Numbering System (DUNS) Number/unique entity identifier. If two or more organizations share facilities and each submits an application in the same program area (e.g., Equipment, Modify Facilities, PPE, Training, and/or Wellness and Fitness Programs) FEMA will carefully review each application for eligibility.

- Fire-based EMS organizations are not eligible to apply as nonaffiliated EMS organizations. Fire-based EMS training and equipment must be requested by a fire department under the AFG Program component program of Operations and Safety.
- Eligible applicants may submit only one application for each activity (e.g., Operations and Safety, Regional, etc.), but may submit for multiple projects within each activity. Under the Vehicle Activity, applicants may submit one application for vehicles for their department and one separate application to host a regional vehicle. Duplicate applications (more than one application in the same activity) may be disqualified.
- An Operations and Safety applicant may submit one application for an eligible project (e.g., turn out gear); it may not submit a regional application for the same project.

Statutory Limits to Funding

- Congress has enacted statutory limits to the amount of funding that a grant recipient may receive from the AFG Program in any single fiscal year based on the population served (15 U.S.C. 2229(c)(2)). Awards will be limited based on the size of the population protected by the applicant, as indicated below.

Notwithstanding the annual limits stated below, the FEMA Administrator may not award a grant in an amount that exceeds one percent of the available grant funds

in such fiscal year, except where it is determined that such recipient has an extraordinary need for a grant in an amount that exceeds the 1% aggregate limit.

- In the case of a recipient that serves a jurisdiction with 100,000 people or fewer, the amount of available grant funds awarded to such recipient shall not exceed \$1 million in any fiscal year.
- In the case of a recipient that serves a jurisdiction with more than 100,000 people, but not more than 500,000 people, the amount of available grant funds awarded to such recipient shall not exceed \$2 million in any fiscal year.
- In the case of a recipient that serves a jurisdiction with more than 500,000 people, but not more than 1 million people, the amount of available grant funds awarded to such recipient shall not exceed \$3 million in any fiscal year.
- In the case of a recipient that serves a jurisdiction with more than 1 million people, but not more than 2.5 million people, the amount of available grant funds awarded to such recipient is subject to the one percent aggregate cap of \$4.6 million for FY 2021, but FEMA may waive this aggregate cap in individual cases where FEMA determines that a recipient has an extraordinary need for a grant that exceeds the aggregate cap; if FEMA waives the aggregate cap, the amount of grant funds awarded to such recipient shall not exceed \$6 million for any fiscal year.
- In the case of a recipient that serves a jurisdiction with more than 2.5 million people, the amount of available grant funds awarded to such recipient is subject to the one percent aggregate cap of \$4.6 million for FY 2021, but FEMA may waive this aggregate cap in individual cases where FEMA determines that a recipient has an extraordinary need for a grant that exceeds the aggregate cap; if FEMA waives the aggregate cap, the amount of grant funds awarded to such recipient shall not exceed \$9 million for any fiscal year.

- FEMA may not waive the population-based limits on the amount of grant funds awarded as set by 15 U.S.C. 2229(c)(2)(A).

The cumulative total of the Federal share of awards in Operations and Safety, Regional, and Vehicle Acquisition activities will be considered when assessing award amounts and any limitations thereto. Applicants may request funding up to the statutory limit on each of their applications.

For example, an applicant that serves a jurisdiction with more than 100,000 people, but not more than 500,000 people, may request up to \$2 million on their Operations and Safety Application, and up to \$2 million on their Vehicle Acquisition request. However, should both grants be awarded, the applicant would have to choose which award to accept if the cumulative value of both applications exceeds the statutory limits.

Cost Sharing and Maintenance of Effort

Grant recipients must share in the costs of the projects funded under this grant program as required by 15 U.S.C. 2229(k)(1) and in accordance with applicable Federal regulations at 2 CFR part 200, but they are not required to have the cost-share at the time of application nor at the time of award. However, before a grant is awarded, FEMA validates that the grant recipient has provided sufficient evidence that the cost-share requirement will be fulfilled during the performance period of the grant award.

In general, an eligible applicant seeking a grant shall agree to make available non-Federal funds equal to not less than 15% of the grant awarded. However, the cost share will vary as follows based on the size of the population served by the organization, with exceptions to this general requirement for entities serving smaller communities:

- Applicants that serve populations of 20,000 or less shall agree to make available non-Federal funds in an amount equal to not less than 5% of the grant awarded.
- Applicants serving areas with populations above 20,000, but not more than 1 million,

shall agree to make available non-Federal funds in an amount equal to not less than 10% of the grant awarded.

- Applicants serving areas with populations above 1 million shall agree to make available non-Federal funds in an amount equal to not less than 15% of the grant awarded.

The cost share for SFTAs will apply the requirements above based on the total population of the state.

The cost share for a regional application will apply the requirements above based on the aggregate population of the primary first due response areas of the host and participating partner organizations that execute a Memorandum of Understanding as described in Appendix B, Section J, Regional projects, of the FY 2021 AFG Program NOFO.

On a case-by-case basis, FEMA may allow a grant recipient that may already own assets (equipment or vehicles), acquired with non-Federal cash, to use the trade-in allowance/credit value of those assets as "cash" for the purpose of meeting the cost-share obligation of their AFG Program award. In-kind, cost-share matches are not allowed.

Grant recipients under this grant program must also agree to a maintenance of effort requirement as required by 15 U.S.C. 2229(k)(3) (referred to as a "maintenance of expenditure" requirement in that statute). A grant recipient shall agree to maintain during the term of the grant the applicant's aggregate expenditures relating to the activities allowable under the NOFO at not less than 80% of the average amount of such expenditures in the two fiscal years preceding the fiscal year in which the grant amounts are received.

In cases of demonstrated economic hardship, and at the request of the grant recipient, the Administrator of FEMA may waive or reduce a grant recipient's cost share requirement or maintenance of effort requirement. AFG Program applicants for FY 2021

must indicate at the time of application whether they are requesting a waiver and whether the waiver is for the cost share requirement, for the maintenance of effort requirement, or both. As required by statute, the Administrator of FEMA is required to establish guidelines for determining what constitutes economic hardship. FEMA has published these guidelines on FEMA's website at https://www.fema.gov/sites/default/files/2020-04/Eco_Hardship_Waiver_FPS_SAFER_AFG_IB_FINAL.pdf.

Before the start of the FY 2021 AFG Program application period, FEMA conducted applicant internet webinars to inform potential applicants about the AFG Program. In addition, FEMA provided applicants with information at the AFG Program website, <https://www.fema.gov/grants/preparedness/firefighters>, to help them prepare quality grant applications. The AFG Program Help Desk is staffed throughout the application period to assist applicants with the automated application process as well as answer any questions.

Applicants can reach the AFG Program Help Desk through a toll-free telephone number Monday through Friday, 8 a.m. AM – 4:30 p.m. ET at 1-866- 274-0960 or electronic mail at firegrants@fema.dhs.gov.

Application Process

Organizations may submit one application per application period in each of the three AFG Program activities (e.g., one application for Operations and Safety, one for Vehicle Acquisition, and/or a separate application to be a Joint/Regional project host). If an organization submits more than one application for any single AFG Program activity (e.g., two applications for Operations and Safety, two for Vehicles, etc.), either intentionally or unintentionally, both applications may be disqualified.

Applicants may access the grant application electronically at <https://go.fema.gov>. The application is also accessible from the U.S. Fire Administration's website at <http://www.usfa.fema.gov> and the Grants.gov website at <http://www.grants.gov>. New

applicants must register and establish a username and password for secure access to the grant application. Previous AFG Program applicants must use their previously established username and password.

Applicants are expected to answer questions about their grant request that reflect the AFG Program funding priorities. In addition, each applicant must complete four separate narratives for each project or grant activity requested. Grant applicants will also provide relevant information about their organization's characteristics, call volume, and existing organizational capabilities.

System for Award Management (SAM)

Per 2 CFR 25.200, all Federal grant applicants and recipients must register at <https://SAM.gov>. SAM is the Federal Government's System for Award Management, and registration is free of charge. Applicants must maintain current information in SAM that is consistent with the data provided in their AFG Program grant application and in the Dun & Bradstreet database, which currently provides the official unique entity identifier, the Data Universal Numbering System (DUNS) number. Per 2 CFR 25.205, FEMA may not make a federal award or make any financial modifications to an existing award unless the applicant or grant recipient has complied with all applicable DUNS and SAM requirements. The grant applicant's banking information, EIN, organization/entity name, address and DUNS number must match the same information provided in SAM.

Criteria Development Panel Recommendations

If there are any differences between the published AFG Program guidelines and the recommendations made by the CDP, FEMA must explain them and publish the information in the *Federal Register* prior to awarding any grant under the AFG Program. For FY 2021, FEMA accepted, and will implement, all but two of the CDP's recommendations for the prioritization of eligible activities.

Adopted Recommendations for FY 2021

The FY 2021 AFG Program NOFO contains some changes to definitions, descriptions, and priority categories. Changes to the FY 2021 AFG Program NOFO include:

- Under the PPE Activity:
 - Inclusion of pre-scoring emphasis for this Activity to ensure replacing out of service and non-compliant PPE is of high priority. Therefore, the following PPE priorities and definitions have been updated:
 - Increase supply for **new hire/existing firefighters** that do not have one set of turnout gear (PPE) or allocated seated position Self Contained Breathing Apparatus (SCBA). This includes replacing **out of service** PPE and SCBA as High Priority.
 - Replace **in-service/in-use/damaged/unsafe/unrepairable** PPE or SCBA to meet current standard as High Priority.
 - Replace **in-service/in-use/expired/noncompliant** PPE or SCBA to current standard as High Priority.
 - Upgrade technology to current standard as Low Priority.
 - Additional considerations for PPE and SCBA:
 - The applicant's call volume has a lesser impact on scoring and therefore the final funding decision.
- Under the Equipment Activity:
 - The following equipment priorities and definitions have been updated:
 - Obtain equipment to achieve minimum operational and deployment standards for existing missions as High Priority.
 - Replace non-compliant equipment to current standard as High Priority.
 - Obtain equipment for new mission as Medium Priority.
 - Upgrade technology to current standard as Low Priority.
- Under Supporting Definitions:

- Paid on-call/stipend departments are added to the definition of Combination Fire Department.
 - Firefighting personnel definition is added.
- Under Modifications to Facility Activity:
 - New first-time installation of exhaust, sprinkler, carbon monoxide and/or smoke/fire detection systems are now listed as High Priority, while replacement or update/upgrade to existing systems is considered Low Priority.
- Under Equipment Activity List:
 - Respirator decontamination system is added as Medium Priority.
- Under Additions to the Application:
 - Question about frequency of live fire training is added for statistical purposes only.
 - Question about self-inflicted fatalities within the department is added for statistical purposes only.
 - Question regarding quantity of equipped Advanced Life Support Response vehicles (transport and non-transport) is added.
- Under Allocations and Restrictions of Available Grant Funds by Organization Type:
 - Outline the funding available for Micro Grants applications.
- Under Application Tips:
 - Recommendation to consider non-Per- and polyfluoroalkyl substances (PFAS) when recipients purchase new protective gear.
- Under Micro Grants:
 - Funding allocation for Micro Grants was updated. Of the 25% allocated to each of the career, combination, and volunteer departments, FEMA will

aim to fund no less than 25% of the allocation for Micro Grants.

Recommendations not adopted for FY 2021

- Proposed changes to reduce the size of the Micro Grant applications were not adopted for the FY 2021 application cycle.
- Proposed change that all items that are PFAS free receiving higher funding priority was not adopted for the FY 2021 application cycle.

Authority: 15 U.S.C. 2229.

Deanne Criswell,

Administrator,

Federal Emergency Management Agency.
